The Sapphire Group Announces a Strategic Alliance with Crane Environmental

The Sapphire Group is delighted to announce its newest strategic alliance with Crane Environmental. Crane Environment, headquartered in Oxfordshire, United Kingdom, supplies the water, chemicals, retail and regulatory sectors with independent, high quality, and objective scientific advice on the environmental sources and pathways of chemicals, and their effects on human and ecological receptors. Their diverse areas of expertise include:

- Human health and ecological risk assessment of industrial, agricultural, pharmaceutical and biocidal chemicals under UK and EU regulations;
- Development of environmental and human health quality standards under UK and EU regulations;
- Direct Toxicity Assessment of discharges to water, sediment and land under IPPC;
- Expert advice on toxicology, ecotoxicology, environmental chemistry and environmental regulation;
- Training, workshop facilitation and project management; and
- Technical auditing.
