The Sapphire Group Authors A Chapter in New Book on Brownfields

The Sapphire Group contributes a key chapter in the most update and comprehensive book on Brownfields. The chapter entitled "The Role of Risk Assessment in Redeveloping Brownfield Sites" was coauthored by Thomas F. Long, Michael L. Gargas, Richard P. Hubner and Robert G. Tardiff.

The book is published by the American Bar Association is entitled *Brownfields, A Comprehensive Guide to Redeveloping Contaminated Property*. The book was written as both a guide and a resource manual of authoritative sources for stakeholders to address how to most cost effectively deal with sites contaminated with chemicals. The Sapphire Group's chapter provides guidance and insight to the risk assessment process surrounding brownfields.
